PROFESSIONAL SUMMARY

Information Technology student who loves building fast web apps and smart AI tools. I enjoy taking on tough technical challenges and turning them into things people actually like to use, whether I'm leading a university project or growing a digital community from scratch.

TECHNICAL SKILLS & LANGUAGES

Programming: Python, TypeScript, JavaScript (ES6+), SQL, HTML5, CSS3
Frameworks & APIs: React.js, FastAPI, Node.js, Nitro, Cloudflare Workers, RESTful APIs
Tools & Cloud: Docker, AWS, Cloudflare, Vercel, Google Vertex AI, Git, Agile/Scrum
Spoken Languages: English (Native), Turkish (Native), German (Beginner)

PROJECTS

EMU Industry Summit '26 - Web Platform Dec 2025 - Apr 2026

Lead Full-Stack Developer & Organizer

- Built the summit's official website from the ground up and made sure it stayed reliable for more than **400 active users**.
- Developed a high-traffic event website with TSX and CSS, ensuring reliable performance on the university domain
- Created a real-time chat interface to automate user support and handle event data dynamically.

CORTEX - AI Assistant for Developers Jan 2026 - Mar 2026

Developer

- Built a responsive AI desktop assistant using Python and FastAPI, utilizing Docker for streamlined deployment
- Integrated Gemini LLM to process computer vision and speech recognition, simplifying daily developer tasks

CF-AI Nitro Assistant Apr 2026

Edge Computing Developer

- Developed a high-speed AI assistant using Cloudflare Workers and Nitro to get responses to users as quickly as possible.
- Focused on cutting down wait times by moving the AI processing to the "edge," making the whole experience feel instantaneous.

Educate - Global Digital Initiative Feb 2026 - Present

Full-Stack Developer

- Working on a long-term project to rethink how we learn and interact with digital platforms on a larger scale.
- Currently building the core foundation with a focus on creating a system that can grow and make a real difference.

Personal Portfolio Ongoing

Full-Stack Developer

- Putting together a clean, responsive site using React and Next.js to show off my best work and professional journey in one place.

LEADERSHIP & EXPERIENCE

EMU Industrial Engineering Club Oct 2025 - Present

Vice President

Famagusta, CYPRUS

- Helped to grow our online community by **300+ active members in just 6 months** by using creative social media strategies.
- Controlling all digital operations and branding to make sure our events reach as many students as possible like LinkedIn and Instagram.

EDUCATION

Eastern Mediterranean University Sep 2022 - Jun 2027

Bachelor's Degree | Information Systems and Technologies (2.15 CGPA)

Famagusta, CYPRUS

CERTIFICATIONS

- Develop AI-Powered Prototypes in Google AI Studio** - Google (ID: 23532742)
- Claude Code in Action** - Anthropic (ID: rzjnp5xya9vz)
- Developing Front-End Apps with React** - IBM (ID: 0T4001SFG89M)
- Introduction to HTML, CSS, & JavaScript** - IBM (ID: DKHS9UV76DUV)
- Google Generative AI Leader** - Google (In Progress)
